Biocompatibility Study Documentation

Instruction for Use

- The package of products shall be opened in sterile and aseptical conditions.
- For a clean peel, open the package from the direction of the arrow slowly.
- There are labels or marks on the drapes, which helps the user to follow patient direction and unfolding directions.
- For the incision film or adhesive tape on the drapes, first of all peel the carrier and fix the drape on the operational area of the patient. After then unfold the drape by following the directions.
- Surgical drapes are ready for the operation, when they are completely unfolded.

Do not use if package is damaged	Manufacturer	Sterilized using ethyleneoxide and single sterile barrier system		Use by date
Do not expose the product to sunlight.	Manufacturing date	Caution		Temperature limitation
Keep dry	Catalogue number	Unique device identifier		Consult instructions for use
Do not re-sterilize	Batch code	Medical device	2696	CE marking
Single use (do not re-use)
